

"The Difference ...

As a team, Machine Plus (+) LLC is going to be bringing in a whole new way to manufacture parts by keeping the customer informed on where we are with each job and delivery. We understand the value of your schedule and will do everything in our power to help you keep it. Being a shop that values continual improvements, we have grown to manage many different needs successfully. We also learned how important feedback from our customers is so we grow to better fulfill our customers' needs.

We currently have:

- Newest Master-Cam with 3D ability
- OKK & HAAS vertical machining
 - 40 & 50 taper
 - Up to 60" x 30" x 30"
 - Multiple True 4th Axis'
 - High Speed Machining
 - Threw Spindle Coolant
 - Probing on all Mills
 - Adjustable Angle Spindle Head
- Mazak turning centers
 - 11.81" diameter, 20.47" long
 - Programmable Tail Stock
 - Collet, 3 & 4 Jaw Chucks
 - Live Tooling
